

Advance the Skills of Your Employees with **Certified Production Technician Training** - Full Scholarships Available to Qualified Students!

Certified Production Technician (CPT) Plus

Have some great employees that need more training? Sign them up for the **NEW! Certified Production Technician (CPT) Plus!** The CPT Plus program consists of the Certified Production Technician (CPT), Industrial Mathematics, Mechanical Measuring Instruments, Interpreting Assembly Drawings and the Hands-on Machining Lab. The goal of the CPT certification program is to raise the level of performance of production workers both to assist the individuals in finding higher-wage jobs and to help employers ensure their workforce increases the company's productivity and competitiveness. The CPT program consists of four individual certificate modules as listed below. Candidates must earn all four certificates to receive the full CPT certification. Students will be expected to complete assignments between classes.

Suggested Prerequisite: 9th Grade Mathematics and 10th Grade English

Textbooks: Textbooks will be made available for students to borrow.

Begins March 10th. Call (845) 802-7171 for Details.

DCB 786-01 * BRC
